- **Corian** es un material compuesto por minerales naturales y metacrilato.
- Es muy flexible y resistente.
- Resiste temperaturas a 180° C.

- **MATERIAL HIGIÉNICO Y ANTIBACTERIAS**

Corian es un material antiporoso: no absorbe ningún tipo de líquido ni grasa.

Se puede limpiar cualquier tipo de mancha.

No permite la entrada de bacterias ni gérmenes. No amarillea con el tiempo.

- **FLEXIBILIDAD**

Corian es un material que calentándolo puede ser increíblemente flexible.

Puedes dar rienda suelta a tu imaginación.

- **RESISTENCIA**

Resiste duros golpes y altas temperaturas.

- **LIMPIEZA TOTAL**

No hay silicona en los copetes con lo cual es todo de una pieza lo que facilita enormemente la limpieza.

Se puede utilizar cualquier producto abrasivo (alcohol, lejía, etc...).

- **REPARACIÓN GARANTIZADA**

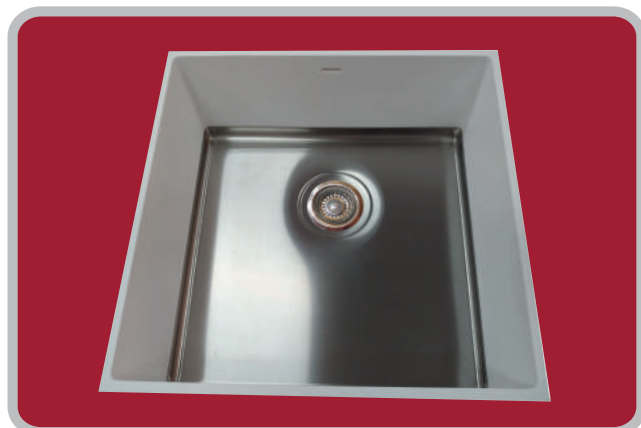

Si se raja, quema o deteriora, se repara sencillamente y queda la superficie nueva otra vez como el primer día.

- **NO SE PERCIBEN LAS UNIONES**

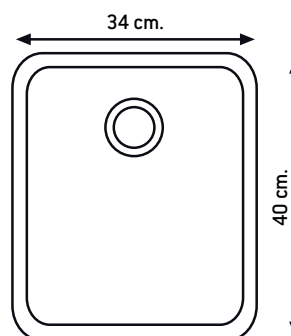

Se pueden hacer superficies ilimitadas. Metros y metros de encimera o barra y no se ven las uniones de las piezas.
